# S2000

► ON YOUR MARK.

MODE  
PUSH

ENGINE  
START

# Start your engine.

Imagine experiencing more than half a century of triumph through innovation. Imagine the lessons learned from the blistering straightaway at Motegi or the thrilling designer S-curves at Suzuka. Imagine harnessing lap after lap of race-driven engineering and aerodynamics. Imagine the exhilaration only a perfectly balanced high A-bois frame can deliver. Imagine the feeling of control that comes from wide, 17-inch, aluminum-alloy wheels. Imagine the excitement of driving it in a single, one-of-a-kind, high-performance sports car. Now, experience it all...and more...at the push of the engine start button.

Meticulous attention has been applied to every driving detail. The driver's seat is positioned behind the car's centre of gravity to offer a superior feeling of integration with the car's every move. Textured aluminum pedals and leather-wrapped steering wheel reinforce the feeling of command and control. The instrument panel and digital tachometer are designed for easy reads at any speed. The sporty, leather-wrapped shift knob allows you to trap through one of the world's shortest close-ratio 6-speed manual transmissions. The Drive-by-Wire Throttle System™ offers amazingly quick, smooth engine response. Altogether, the S2000 will leave even the boldest drivers excited.

## Get set.

The moment you slip inside the JET-inspired, leather-trimmed cockpit, the feeling of high performance is unmistakable. Sporty digital gauges and driver controls are prominently and intuitively placed, creating an intimate yet comfortable driving experience. Anatomically sculpted, high-bolstered, perforated-leather seats are ready to support quick manoeuvres, while the audio system with built-in headrest speakers adds volume to any drive. In short, it's a drive designed with one person in mind - you.

# Go!

The S2000's compact, fuel-efficient, 2.2-litre, 16-valve, DOHC, VTEC® engine is a great example of F1-inspired engineering at its best. From the weight-saving, aluminium-alloy engine block and superlight, forged-alloy pistons to the fibre-reinforced cylinder walls, this precision crafted engine was designed for speed and perfect weight distribution. The result is a high-revving, high-velocity, high-performance power plant that outputs an impressive 237 hp and 162 lb.-ft. of torque all the way to the 8000 rpm redline – and it does this all with a low-emission Tier 2 Bin 5 rating.

The S2000 really comes to life with the exceptional handling of the race-inspired, 4-wheel, independent, double-wishbone suspension system that enhances cornering, stability and steering response. The system consists of upper and lower wishbone arms at each wheel, with calibrated coil-over spring damper units and anti-roll bars. The in-wheel suspension also helps maintain the car's low centre of gravity, which reduces body roll and increases your ability to attack corners. In fact, everything from the power-to-weight ratio and flawless balance of the high X-bone, monocoque frame to the aerodynamic, lift-reducing, front-to-rear-rising body line is designed to offer maximum driver control.

The S2000 boasts many genuine Formula One™-tested safety features. In fact, with integrated head-injury protection, side-impact protection and high-strength steel built into the doors and side sills, the level of protection rivals most closed-top vehicles. Plus, the extremely rigid high X-bone monocoque frame offers superior occupant protection by dispersing the energy created during a collision away from the cockpit, regardless of the point of impact. Other safety essentials include 3-point seat belts with front pretensioners, 4-wheel Anti-lock Braking System (ABS), power-assisted, ventilated front disc/solid rear disc brakes and Vehicle Stability Assist (VSA) with Traction Control for increased vehicle control.

► Standard Safety Features:

Dual-stage, dual-threshold front airbags (SRS) / Vehicle Stability Assist (VSA) with Traction Control / 4-wheel Anti-lock Braking System (ABS) / High-Intensity Discharge (HID) Headlights / Tire Pressure Monitoring System (TPMS)

Heads winds you and your passengers to always truck up.

THE  
HONDA  
BENEFIT

GREEN

SAFE

FUN

As the world's largest engine manufacturer, Honda has a tradition of turning innovative ideas into products that help make our world greener, safer and a little more fun. These products are equipped with some of the cleanest, most fuel-efficient engines you'll find on the road, in the water or high above the clouds. And as technically ingenious as these products are, they are all brought to life by The Power of Dreams.

## SPECIFICATIONS

ENGINE	\$29000	\$30000
1.7 Flex i-VTEC engine, DOHC, VTEC® 4-cylinder	•	•
Microprocessor-controlled Digital 24-Volt™	231 hp @ 6300	231 hp @ 6300
Intelligent Variable Valve Timing with Electronic Control	114.7	114.7
Electrically heated front seats	112.90	112.90
Front wheel drive	104.2-105.3	104.2-105.3
Computerized 4-wheel disc brakes (front/rear)	103.1	103.1
Aluminum-alloy 16-inch wheels (front/rear)	•	•
Multi-level Blue-Topper™ sunroof	•	•
Keyless entry system	•	•
Programmed Auto Ignition (PPI)	•	•
Anti-theft system	Programmed Auto Ignition (PPI)	Programmed Auto Ignition (PPI)
•	•	•
•	•	•
DRIVETRAIN	\$29000	\$30000
Front-wheel drive	•	•
Front-wheel drive (includes front-wheel drive and front-wheel drive with anti-lock disc brakes)	102.2	102.2
•	•	•
CHASSIS	\$29000	\$30000
A-frame independent front suspension	•	•
12" aluminum alloy wheels	•	•
Electronically controlled front anti-slip traction control (ATC)	•	•
Front disc rear drum/tubeless tires	•	•
High-performance tires - front	102.1-103.0	102.1-103.0
High-performance tires - rear	102.1-103.0	102.1-103.0
Programmable electronically controlled rear wheel torque distribution	•	•
Safety	\$29000	\$30000
Supplemental side-impact front airbags	•	•
Front side-impact airbag curtain protection	•	•
Front side-impact airbag curtain protection (includes ATC)	102.2	102.2
Front-side impact airbag curtain from airbag (ATC)	•	•
Intelligent Vehicle Information System	•	•
One-Piece Windshield Wiper System	•	•
Programmable Headlamps (PHL)	•	•
Programmable Headlamps (PHL) with Daytime Running Lights	•	•
Exterior	\$29000	\$30000
Black-painted bumpers	•	•
Black-painted front/rear door handles	•	•
Black-painted side door trim with clear vinyl window	•	•
Front/rear parking sensors	•	•
High-tension front/rear door seals	•	•
Wind defroster	•	•
Windshield wipers	•	•
Entertainment	\$29000	\$30000
AM/FM/CD audio system with 6 speakers	•	•

BERLINA BLACK  
Standard accessories include:  
Black leatherette interior & steering wheel

BODY YELLOW PEARL  
Standard accessories include:  
Black leatherette interior & steering wheel

PLATINUM WHITE BEIGE  
Standard accessories include:  
Black leatherette interior & steering wheel

STYLERS SILVER METALLIC  
Standard accessories include:  
Black leatherette interior & steering wheel

## COMFORT & CONVENIENCE

- Leather seats (front)
- Leather steering wheel with shift indicator buttons
- Leather-trimmed seats with 6-way manual adjustment
- Leather-trimmed steering wheel
- Front passenger's seat with 6-way manual adjustment
- Front/rear floor-mounted carpeted floor mats
- Front/rear floor-mounted carpeted floor mats with individual driver's and passenger side options
- Towing hitch-mounted trailer hitch
